

Re: Request for Government of Canada to match donations to India facing COVID Crisis

Dear <Member of Parliament Name>, M.P.

Today I am writing to you as a constituent in your <Name of your parliament riding> riding. I am writing to request the Canadian Government to match the donations being made by Canadians and in particular Canadians of Indian Origin in helping with the COVID related emergency that the country is facing.

We know that the Canadian Government under your party's Leadership showed the same type of support during various past emergencies around the globe. We are sure that your Government can do the same for this crisis.

I myself and thousands of Canadians would very much appreciate the support from your Government as we see many of our loved and dear ones in that country go through the suffering.

Thank you
