

Oxfam COVID-19 Response in India

Oxfam India is procuring oxygen tanks, beds, digital thermometers, and other medical equipment to help government hospitals where supplies are desperately low. We are also preparing to provide food rations and cash support to stranded migrant workers and other marginalized groups, and handwashing stations in public spaces. Your donation to Oxfam today will go directly to this response.

UNICEF Canada Covid-19 Response in India

Your donation will help UNICEF supply life-saving medical oxygen and testing machines in the most affected districts in India. A second wave of COVID-19 is wreaking havoc throughout India. The loss of life is tragic and catastrophic – with nearly two deaths every minute. Growing exponentially every day, this recent COVID-19 outbreak is recording the highest count of new cases, more than any other country throughout the entire pandemic. The new surge in COVID-19 cases is also seeing more young people including children fall ill. Hospitals and health centres across the country are overwhelmed with hospital beds, essential drugs and oxygen running out. People are desperate for urgent care.

HelpAge Canada Covid-19 Response in India

As India fights to stay afloat amidst the COVID-19 lockdown, the elderly are struggling to simply survive. Older persons have been the worst hit, as they are the most vulnerable especially those above 80 years of age who are at a high risk of succumbing to COVID-19. Older persons in Indian are in urgent need for awareness raising, food packages, hygiene kits, personal health support, water, sanitation, hygiene and vaccine support. We need to help India fight this pandemic.

International Development and Relief Foundation (IDRF) Covid-19 Response in India

India is in the midst of a humanitarian crisis. On April 24th, 2021 almost 350,000 new COVID-19 cases were reported. India has the highest daily infection rate of any country. Over 2,600 people in India are losing their lives to the virus each day, with the nation on track to surpass over 200,000 COVID-19 linked deaths by April 30th.

IDRF is helping build capacity of hospitals and medical centres that are treating COVID-19 patients in states like Gujarat, and Madhya Pradesh. As

part of the initial response: 11 hospitals have been identified and will be supplied with essential bilevel positive airway pressure (BiPAP) ventilation systems. Beds and other medical equipment will be provided to these hospitals. Medication and food packages will be provided to hospitals, and families of COVID-19 patients across India. These essential packages are helping patients and their families sustain their basic needs as they fight this devastating virus.

Ekal Canada Covid-19 Response in India

Ekal has been successful in keeping 100,000 Ekal villages with population of 100 million people safe until recently. We are sorry to share that epidemic has now begun to infiltrate Ekal villages. Most of Ekal villages are very remote, and generally do not have easy access to medical facilities. A large team of Ekal workers is trying hard to prevent and control epidemic in these villages. Ekal needs funds for prevention and control of epidemic in these villages. We need your support. Funds requirement for the above is huge. Ekal Canada has already committed to send \$100,000 within days.

Donations can be made online by eTransfer at info@ekal.ca, or at Ekal website www.ekal.ca; Tax receipt will be issued for these donations. Will be pleased to answer any questions.

Islamic Relief Canada Covid-19 Response in India

Help us deliver Oxygen & Covid-19 Vaccines to India. Every second in India, 4 new cases of Covid-19 are recorded with 2 new deaths per minute. Cases are surging by hundreds of thousands per day, hitting record peaks with graveyards completely overwhelmed. People are left fighting for their lives amidst a severe shortage of vaccines and medical care as hospitals and critical care facilities are starved of oxygen supplies. In support of UNICEF, Islamic Relief Canada is helping deliver Covid-19 vaccines to the world's most poorest countries. We urge you to help us respond to this crisis in India and end the pandemic everywhere, quickly and equitably, one vaccine at a time. Today, you can pay it forward and donate oxygen and vaccines to help save a life in India. Help provide urgent relief today. Every life deserves a chance.
